

Effective strategic consultation and involvement

Diana Crump
Joint Engagement Board (JEB)
Representative

fusion

empowering people together

If we work together we can change services for the better, promoting choice and control over the way disabled people and carers live their lives.

The Fusion Network

Health and Wellbeing Consultation

- Developing a good practice model which can be rolled out to other consultations
- Inclusive and broad ranging
- Fully accessible for everyone
- Joined up approach
- ‘Givens’ clearly set out at the outset
- Consultation report to be produced
- High quality feedback to participants and other stakeholders

Developing the Priorities

- Today is the start of the consultation process on the priorities
- Decisions are based on accurate and relevant data sets and evidence base
- Aim is to incorporate qualitative and Voluntary sector intelligence into JSNA
- Where appropriate the consultation outcomes to be shared

Gathering your views

- Elected members on the Board
- Two questionnaires have been developed asking for views on the priority setting
 - for individuals
 - for organisations

Available through DCC and sent out through the Fusion/Links/VCS networks

Learning Disability Parliament PA Exercise

- The Speaking-Up groups from the Learning Disability Parliament will be doing a PA exercise
- This way everyone will be supported to understand the questions fully and each member will be engaged enthusiastically and meaningfully in the process.
- They will be using easy read sheets which will be on the wall, discussion will take place in depth and then each member of the Speaking-Up group will be putting a colour coded sticker where they see the priority - They are then doing a graffiti wall for further comments on each question.

Key dates

- **17th July** (today) views gathered of key stakeholders
- **End July** Questionnaires available
- **3rd September** Closing date for consultation
- **After 27th September** Provide Feedback from consultation to H&WB Board
- **October** onwards feedback on consultation

Any Questions?
