COMMISSIONING PRIORITIES	Promoting self-care, prevention and personal responsibility, resulting in less urgent care.	centred comm (inc. mental he	Developing joined-up patient- centred community services (inc. mental health), closer to home. estates and IT.	
WORKSTREAMS & KEY OUTCOMES	Primary Care: To encourage collaboration between practices, to deliver the best services for patients, when it is needed.		Community Services: To achieve fully joined-up and cost- effective services from the acquisition process.	
	Increase capacity in primary care in order to treat more patients, only going to secondary care where absolutely necessary.		To increase the number of patients who are pro-actively case managed to avoid unnecessary hospitalisation and reduce bed based care.	
	Urgent Care: To improve access to in and out of hours GP services to avoid unnecessary overspill into secondary care.		Mental Health Services: To assertively case manage patients in primary care, through integrating mental health into community teams.	
	To increase self-care and pro-active case management e.g. diabetes, alcohol.		To commission a Single Point of Access to joined-up mental health services.	
	To review patient journeys through A&E in order to redesign services to avoid unnecessary admissions.		To improve access to, and patient experience of, psychological therapy and crisis services, especially for children.	
	To increase the level of pro-active care in residential homes.		To implement the local Dementia Strategy.	
	Planned Services:		Medicines Optimisation:	
	To ensure patients are diagnosed and receive a care plan as soon as possible.		To review and reduce prescribing variation in all settings.	
	To ensure patients receive the appropriate level of intervention, avoiding unnecessary journeys to hospital.		To fully utilise gain-share opportunities with secondary care.	
	Children's Services:		Learning Disabilities:	
	To ensure children and young people receive joined-up services in appropriate settings.		To implement actions set out in the Winterbourne View Report.	
	To encourage young people to be responsible for their own condition in order to prepare for transition to adulthood.		To ensure mainstream care for people with Learning Disabilities by commissioning inclusive services.
